

Restoration Shade Confirmation

I, _____, selected the shade of the restoration to be placed in my mouth. The shade that I chose is: _____ for tooth #: _____. I understand that sometimes it is not possible to match the color of natural teeth exactly with artificial teeth.

I understand that once the restoration is made in the shade I chose, it can not be changed unless I pay an additional fee of \$250 (two hundred and fifty dollars) per tooth.

Additionally, I understand that I am starting a process to receive a restoration in my mouth. This process is in phases. I understand the first phase, today, the tooth will be prepped and I will have a temporary restoration placed. I further understand that I may be wearing temporary restoration for a few weeks, which may come off. I must be careful to ensure that it is kept on until the permanent is placed. If the temporary crown/bridge comes off, I understand I must return as soon as possible for replacement. A lost or malfitting temporary crown/bridge can lead to gum disease, sensitivity or decay and may need to have the crown/bridge redone at an additional cost.

I understand that the final phase is the cementation of the permanent restoration. I also understand that this permanent cementation must be done within 90 (ninety) days. If placement is done after 90 (ninety) days, I understand there may be a chance the permanent restoration may not fit due to a shift or change of the teeth and/or gum tissues. I understand that if I wait for placement after the 90 (ninety) days and the restoration does not fit, I may need to pay an additional fee of \$300 (three hundred dollars) per tooth.

Our staff and doctors work together making additional efforts to ensure the longevity and quality of crowns and bridges. We want you to be happy with the service you receive and ask you to refer your family and friends.
